ORACLE MANUFACTURING, LLC

# Engineering Innovation Factory

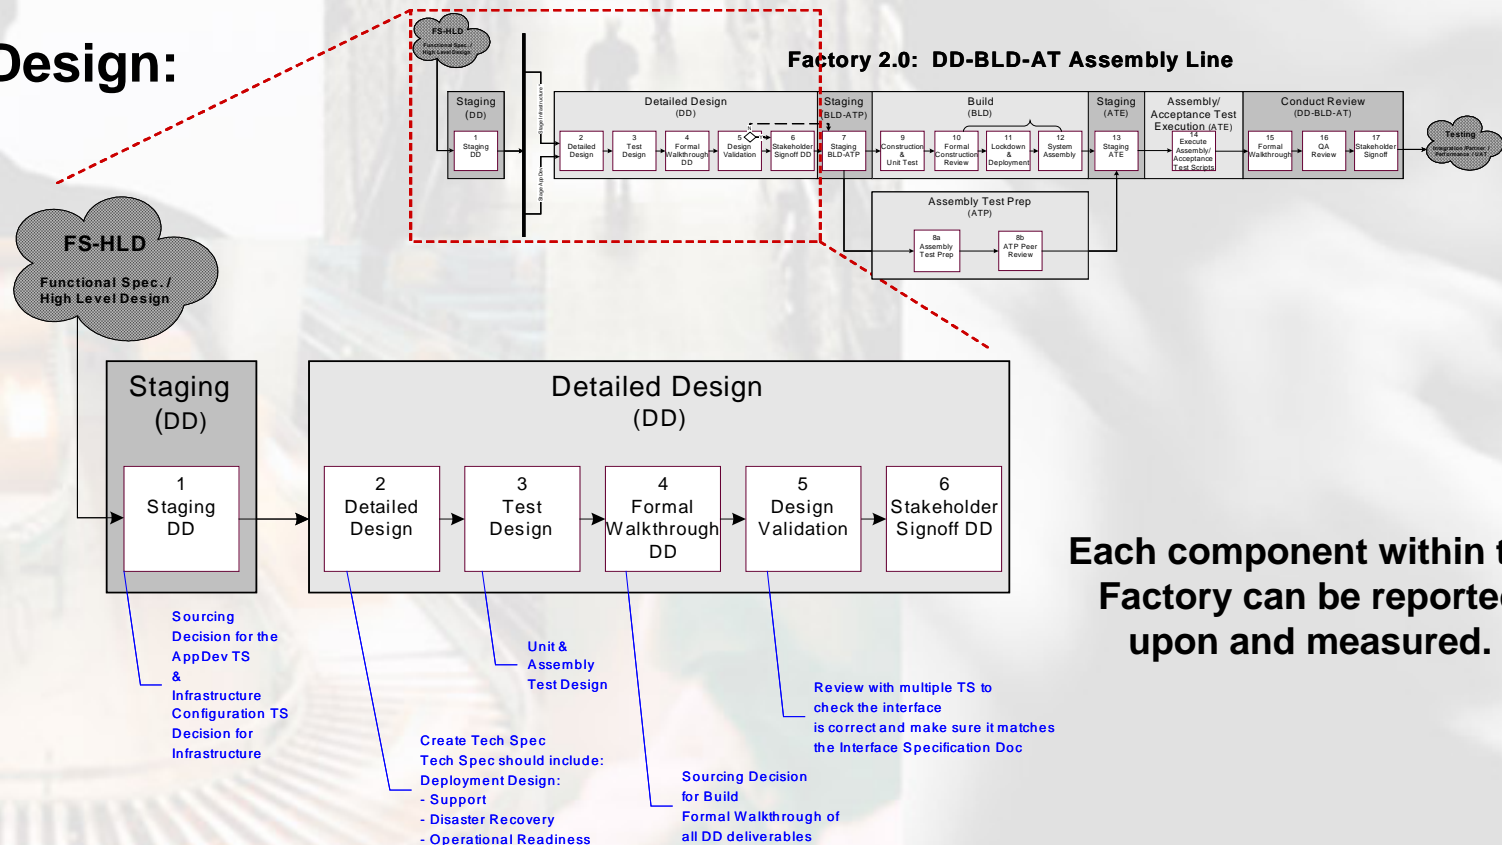

- ✓ Oracle is a global leader in product development and a pioneer in Engineering Innovation outsourcing. With offices in Yorklyn Delaware, Rochester New York, Fremont California (at the heart of the Silicon Valley) and multiple facilities throughout China, Oracle offers companies across the globe the outcome-driven methodology that transforms engineering innovation from an unstructured process into a rules-based discipline with measurable inputs and outputs.
- ✓ During the past decade, Oracle has helped shape the rapid growth of design & engineering outsourcing as a key operational driver for cost savings, productivity increases, and competitive differentiation. Oracle's Engineering Innovation Factory can deliver a complete system, sub-system or component design, or a set of engineering services (such as drafting or analysis). Our Engineering Innovation Factory will help you achieve a diverse set of tactical and strategic business objectives, including increased revenue, reduced time-to-market, and organizational transformation.

# Engineering Innovation Factory **Sample**

Oracle's Proprietary Engineering Innovation Factory was created to institutionalize and create rigor within development programs.

## Detailed Design:

Each component within the Factory can be reported upon and measured.

# Engineering Innovation Factory Rates

- ✓ With new theory, frameworks and practices, innovation has been transformed from an unstructured, hit-or-miss process into a predictable, rules-based discipline. Profound yet practical, the Engineering Innovation Factory methodology shatters outdated thinking and is setting a new global standard for innovation.

ORACLE ENGINEERING INNOVATION FACTORY - STANDARD RATE CARD									
Resource Type	Rate	Engineering Skills							
		Consulting	Design	Development	Analysis	Application	Production	Research	Test
Senior Engineer	\$100/hr*	X	X	X	X	X	X	X	X
Research Engineer	\$80/hr*		X	X		X	X	X	X
Engineer	\$40/hr*		X	X		X			
Drafter	\$20/hr*		X						

\* Excludes offshore and volume discounts

- ✓ If you are ready to think differently about how to develop and manufacture your products, we can help. Put our experience to work for you, log onto <http://oraclemanufacturing.com> or contact an Oracle Engineering representative today at 585-225-4150.
